

BIOGRAPHY

Hi, my name is Pedro Carmo and I'm a designer.

Growing up, I always had the highest of ambitions and expectations of myself. The art of creating and crafting something for others has always been a passion of mine, but I wasn't exactly sure how to best translate that passion.

As I grew older, my life experiences led me to find my creative 'niche': Design. Designing sites and building them in HTML & CSS quickly became a daily passion.

Whether I'm building a web app, designing a landing page or crafting an interface, I'm designing the experience of a product. A digital product that will live on multiple platforms, accessible to anyone interact with. Understanding and perfecting that interaction is why I'm passionate about design and why I love creating the web.

SKILLS
